Product Description

Yanmar YM342VA-L Multi-purpose Compact Tractor

Multi-purpose Compact Tractor

After nearly 30 years, 2021 marks the return of Yanmar America's classic YM tractor series, operating in the 42 to 59-horsepower range. This series features tractors for the next generation of traditionalists - those looking for the features, benefits, and 10-year warranty associated with the Yanmar brand, with a nod to their family tractor from years past.

Old school work ethic with new school technology.

The original YM series tractors were referred to as "the overachievers" - and with features like 540 economy PTO, 2,500lb lift capacity, and Yanmar's proven performance link technology - that legacy continues with the YM3.

The YM342 is equipped with a 41 horsepower engine and a maximum traveling speed of up to 17.7mph
