Product Description

Takeuchi TB2150R Excavator

It features a fixed boom for greater stability and allows the operator to carry heavier loads. The TB2150R comes standard with a long arm that provides exceptional digging depth. A redesigned operator's station features a 7" multifunction color display, radio with Bluetooth capabilities, intuitive rocker switches, and hydraulic joystick controls. A high-back air suspension seat is standard equipment keeping the operator comfortable and productive throughout the year. The TB2150R features a large wraparound counterweight, a 270° view camera system, and a deluxe LED work light package for excellent visibility in low-light conditions. This machine has three auxiliary hydraulic circuits that include a high-flow primary circuit that delivers up to 59 gpm making the TB2150R an outstanding attachment platform.
