Product Description

GiANT Loaders - GS-Series Skid Steers

Giant has expanded its product range with the GS-series stand-on mini-skidsteer. This machine is powered by a strong 3 cylinder 25 HP Kubota diesel engine. The GS900 is driven by 4 heavy duty hydraulic wheel motors and turns on a dime!

The GS950T(tracks) has two powerful wheel motors and provides improved traction in dirt and mud. It also has additional lift capacity.

The GS-series mini-skid comes standard with an adjustable hip bracket, a double acting hydraulic function, cast iron counterweights and a universal mini-skid attachment plate. This head-turner gets the job done quick and easy with options for customers in landscaping, agriculture, tree care, construction and more.
