Product Description

GiANT Loaders - GT5048 Telehandler

The Giant GT5048 compact telehandler provides a spacious cab with curved windscreen provides for all-round vision that allows safe and precise operation. The machine can be equipped with an optional heated cab with AC. Designed with a compact frame, the Giant GT5048 is built to maneuver in tight spaces and work in rough terrain. Standard 4-wheel steer and optional crab steer make the machine very agile. The Giant GT5048 is equipped with a strong 3 cylinder 50 HP turbo charged Kubota diesel engine with a catalyst (DOC) and particulate filter (DPF). The machine features a standard 2-speed gearbox and heavy planetary final drives that deliver a high pulling force, quick acceleration, and a top speed of 13.5 mph. The telescoping boom provides a pin height of 189". This machine comes standard with a universal full size SSL plate and hydraulic quick attach.
