Product Description

Bluebird Turf 36 in. Towable Aerator TA10

The TA 10 (36" aerating width) is ideal for commercial areas and large residences, while the TA 12 (48" aerating width) gives the extra capability to handle just about any situation. Two independent tine rotors with 32 or 40 interchangeable closed spoon 1/2" tines provide superior maneuverability around corners and tight areas. Optional weight containers ensure optimal soil penetration. Tip wheels allow the TA10 and TA12 to easily pass through narrow openings. The rugged design of these aerators offers years of low-maintenance productivity.
