Product Description

Bluebird Turf 18 in. Sod Cutter

The SC550 model is designed for contractor's rental shops, golf courses, country clubs and homeowners that have a need to remove and replace sod in small targeted areas. It can also be used for preparing for a new landscaped bed, clearing for a new sidewalk or driveway, or tackling other home improvement projects. With 0.25" cutting depth increments up to 2.5", this unit can tackle all of your needs and grass types. The knifed outside blade edges allow the machine to easily cut through running stem grasses.
