Product Description

Bluebird Turf 22 in. Seeder

The S22 Seeder is well balanced and portable thanks to the placement of the seed hopper and its folding handle. The 30-lb capacity polymer hopper features a site window and is mounted at the rear to ensure easier maneuverability and minimal seed damage during over seeding. The seed gate is adjustable to accommodate a broad range of grass seed. The unit is simple and intuitive to operator. The seed unit is also available as a separate accessory that can be mounted on our PR22 Power Rake. The S22 model is ideal for contractors, rental shops and homeowners.
