Product Description

Arctic Cat Bearcat 600 EPS 2027 597cc ATV

The Bearcat 600 EPS is as iconic as the day it was released 30 years ago. This new take on an old classic showcases how Arctic Cat ATVs continue to deliver on power and performance. The Bearcat 600 EPS carries on Arctic Cat's long tradition of building purpose-driven off-road machines with the engineering quality and feature depth that experienced riders expect from the brand.

Whether you are a first-time rider looking for an approachable platform to learn on or a seasoned enthusiast seeking dependable performance on weekend trail runs, the Arctic Cat Bearcat 600 EPS delivers a well-rounded experience. Its combination of 597cc displacement, cvt - cvtech trailbloc drivetrain, and rugged chassis construction makes it a competitive choice in the utility ATV segment. With Arctic Cat backing, the Bearcat 600 EPS benefits from decades of powersports engineering knowledge and an extensive dealer and support network across North America.

The Bearcat 600 EPS is an excellent choice for recreational riders, weekend explorers, and property owners who want a reliable and versatile ATV. Made for riders 16 years of age and older. Arctic Cat recommends that all riders take a training course and read their owner's manual thoroughly. It performs well on established trail systems, forest roads, and open terrain. Whether used for hunting access, property maintenance, or pure recreational riding, the Bearcat 600 EPS offers the right combination of capability and everyday usability. It is backed by a 12 Months warranty.

Engine and Drivetrain

The Bearcat 600 EPS is powered by a Liquid-Cooled, Single Cylinder, with Electronic Fuel Injection (EFI) fuel delivery. Power is routed through a CVT - CVTech Trailbloc for seamless power delivery across the rev range. The drivetrain setup gives riders the flexibility to tackle technical terrain with confidence, while the gearing remains manageable for everyday trail use.

- Engine displacement: 597cc
- Engine type: Liquid-Cooled, Single Cylinder
- Fuel delivery: Electronic Fuel Injection (EFI)
- Drivetrain: CVT - CVTech Trailbloc
- Fuel capacity: 4.8 gal (18.2 L)
- Starting system: Electric Start

Suspension and Handling

Rider comfort is addressed through a purpose-engineered suspension setup that balances compliance on

rough terrain with confident stability at higher speeds. The Arctic Cat Bearcat 600 EPS employs an Arched Double A-Arm, High Clearance with 8.75 in. (22.2 cm) Travel up front and Arched Double A-Arm, High Clearance with 8.75 in. (22.2 cm) Travel at the rear, providing adequate travel for trail riding. The braking system uses Dual Front Hydraulic Disc, Single Rear Hydraulic Disc to deliver consistent stopping power in wet and dry conditions alike.

- Front suspension: Arched Double A-Arm, High Clearance with 8.75 in. (22.2 cm) Travel
- Rear suspension: Arched Double A-Arm, High Clearance with 8.75 in. (22.2 cm) Travel
- Brakes: Dual Front Hydraulic Disc, Single Rear Hydraulic Disc
- Tires: 26 x 9-14 front / 26 x 11-14 rear
- Ground clearance: 11.75 in (29.8 cm)
- Wheelbase: 52 in (132 cm)

Dimensions and Utility

The Bearcat 600 EPS is built around a proportioned chassis that fits comfortably in a range of trail conditions. the ATV remains manageable while still offering the structural rigidity riders depend on over repeated use. With a towing capacity of 1,050 lb (476 kg), and 150 lb (68 kg) rear rack capacity, the Bearcat 600 EPS doubles as a working machine capable of assisting with light property and farm tasks.

- Overall length: 86.75 in (220.3 cm)
