Product Description

Arctic Cat Pantera 9000 2027 998cc Snowmobile

The Pantera® is built for long-distance comfort and loaded with features that make every mile smoother. Heated seats, rear storage and a turbo option mean you and your passenger can chase the horizon in total control. The Pantera 9000 offers competitive specification for its class and benefits from Arctic Cat's legacy of snowmobile innovation. Whether you are a seasoned enthusiast or a rider building hours in their home riding area, the Pantera 9000 brings a proven combination of chassis engineering, powertrain capability, and standard equipment to the trails.

Arctic Cat has been producing snowmobiles since 1962 and the Pantera series continues that tradition with a machine that reflects current engineering priorities while remaining true to the brand's commitment to rider-focused design. The 998cc engine at the core of the Pantera 9000 powers it through a wide range of conditions with consistency and character.

The Pantera 9000 is built for riders who cover significant distance and want to do so in comfort. Its longer wheelbase, elevated windshield, and increased fuel capacity make it well suited to extended trail tours, club rides, and multi-day sled trips. Riders who log high mileage seasons on groomed trail systems and want a machine that remains comfortable over many hours of riding will find the Pantera 9000 a rewarding choice. The Pantera 9000 is backed by a 12 Months warranty.

Engine and Powertrain

The Pantera 9000 is powered by a 9000 Turbo, 4-Stroke engine, liquid cooled, with electronic fuel injected (efi) fuel delivery. The bore and stroke dimensions of 80 x 66.2 mm give the engine its distinctive power character. Clutch duties are handled by an ADAPT / ADAPT setup, calibrated to deliver smooth and efficient power transfer across the power range. The exhaust system, turbocharger w/ stainless steel muffler, contributes to the engine's overall performance character. A minimum octane rating of 91 is recommended to maintain proper engine performance.

- Displacement: 998cc
- Engine type: 9000 Turbo, 4-Stroke
- Cooling: Liquid
- Cylinders: 3
- Bore x stroke: 80 x 66.2 mm
- Fuel delivery: Electronic Fuel Injected (EFI)
- Drive clutch: ADAPT
- Driven clutch: ADAPT
- Reverse: Push-Button
- Fuel capacity: 10.7 gal
- Minimum octane: 91

- Starter: Push-Button Electric Start

Track and Suspension

The Pantera 9000 runs a 146 in x 15 in Ripsaw track with a 1.25 in lug height and 2.86 in pitch. The track configuration is optimized for the groomed and lightly off-trail conditions that define the touring snowmobile category. The front suspension features ARS with 9.5 in of travel, while the rear suspension uses SLIDE-ACTION Rear Suspension, Coupling Blocks, Torque-Sensing Link Rear Arm, Adjustable Torsion Springs & Fiberglass Overload Springs with 13.5 in of travel for the intended riding style.

- Track length: 146 in
- Track width: 15 in
- Track type: Ripsaw
- Lug height: 1.25 in
- Pitch: 2.86 in
- Front suspension: ARS
- Front travel: 9.5 in
- Rear suspension: SLIDE-ACTION Rear Suspension, Coupling Blocks, Torque-Sensing Link Rear Arm, Adjustable Torsion Springs & Fiberglass Overload Springs
- Rear travel: 13.5 in
- Ski type / width: ProTour - 6 in
- Ski stance: 42-43 in - Adjustable
- Brakes: Stealth Hydraulic Master Cylinder

Chassis and Dimensions

The chassis of the Arctic Cat Pantera 9000 is designed to balance rigidity with weight management. With a focus on long-distance ride comfort and storage integration. The heat exchanger configuration is front/long tunnel, designed for consistent cooling across typical operating temperatures.

- Overall chassis length: 129 in
- Overall chassis width: 48-49 in
- Overall chassis height: 51 in
- Heat exchanger: Front/Long Tunnel

Features and Standard Equipment

The Arctic Cat Pantera 9000 comes equipped with a range of standard features selected to enhance the riding experience from the moment you take delivery. Lighting is provided by led w/ accent light for strong visibility on early morning or evening rides. The 14 in mid-height windshield offers appropriate wind and weather protection for the intended riding category.
