Product Description

Arctic Cat ZR 600 R-XC EPS 2027 599cc Snowmobile

The ZR® R-XC lineup brings cross-country race pedigree to everyday trail riding. Built on the lightweight, centralized CATALYST platform, these sleds are engineered for control, durability and a relentless pace. Electronic Power Steering reduces fatigue and keeps handling precise when conditions get demanding. When the terrain gets rough, R-XC stays sharp. The ZR 600 R-XC EPS offers competitive specification for its class and benefits from Arctic Cat's legacy of snowmobile innovation. Whether you are a seasoned enthusiast or a rider building hours in their home riding area, the ZR 600 R-XC EPS brings a proven combination of chassis engineering, powertrain capability, and standard equipment to the trails.

Arctic Cat has been producing snowmobiles since 1962 and the ZR R-XC series continues that tradition with a machine that reflects current engineering priorities while remaining true to the brand's commitment to rider-focused design. The 599cc engine at the core of the ZR 600 R-XC EPS powers it through a wide range of conditions with consistency and character.

The ZR 600 R-XC EPS is made for riders who run trails at speed and want a machine with race-inspired geometry and chassis calibration. The R-XC designation signals a higher level of suspension tuning and performance-oriented setup. It is best suited to experienced riders who want a trail machine that feels alive under aggressive riding and responds precisely to rider inputs on fast, technical trail surfaces. The ZR 600 R-XC EPS is backed by a 12 Months warranty.

Engine and Powertrain

The ZR 600 R-XC EPS is powered by a 600, 2-Stroke engine, liquid cooled, with dual stage injection fuel delivery. The bore and stroke dimensions of 73.8 x 70 mm give the engine its distinctive power character. Clutch duties are handled by an ADAPT / ADAPT setup, calibrated to deliver smooth and efficient power transfer across the power range. The exhaust system, apv w/ tuned pipe, pipe sensor, stainless steel manifold & muffler, contributes to the engine's overall performance character. A minimum octane rating of 91 is recommended to maintain proper engine performance.
